

VIZUAL EDGE EVALUATION

BRANDON HALL - 3/31/2020

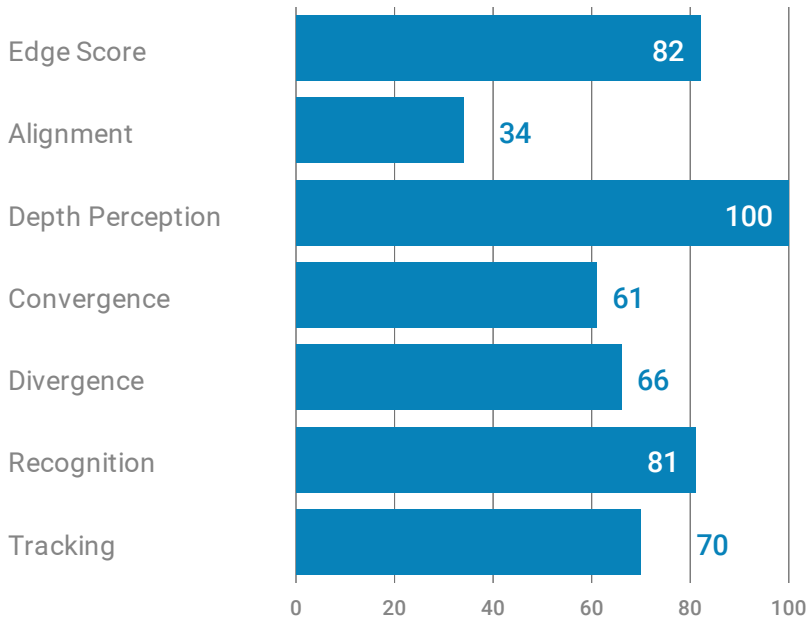

The Edge Score is a comprehensive score that takes the core-six visual skills into account, providing a benchmark number for assessing an athlete's overall visual ability.

Edge Score

84.3

EXCELLENT

Percentage Rank

RESULT	STATION/TIME	EXERCISE	PERCENTILE
2A		ALIGNMENT	
		FAIR Alignment score suggests timing issues may exist at the plate. Batter likely will often swing too early or too late.	34
100.0		DEPTH PERCEPTION	
		SUPERIOR Perfect depth score suggests no timing issues at the plate, as well as ability to judge the distance, speed and direction of the ball.	100

CONVERGENCE

RESULT	STATION/TIME	EXERCISE	PERCENTILE
 95.2	39	GOOD Good ability to focus on incoming pitches and objects in close proximity. May struggle at times to hit high velocity or off-speed pitches, based on convergence score.	61
 94.6	26	DIVERGENCE GOOD Solid ability to locate the ball out of the pitcher's hand. May occasionally struggle to judge the speed, trajectory and spin of the ball as well.	66
 96.2	0.76s	RECOGNITION EXCELLENT Strong baseball IQ, as well as overall anticipation and ability to pick up pitch type. Great at understanding certain cues or signs throughout the course of the game.	81
 97.4	0.54s	TRACKING GOOD Solid overall reaction times. Improving tracking score could help reaction speed to a moving target, particularly on defense.	70
